HATAKA HOBBY PAINTS

The widest range of water-based acrylics optimised for airbrush on the market – offering more than 330 true colours. All paints are highly pigmented and permanent, specially formulated for use in airbrush. Water-based acrylic paints, produced in accordance with all appropriate EU safety standards, do not include any harmful substances – safe in use and environmentally friendly. Packed in 17ml bottles with dropper tip for easy application and containing a metal ball inside for easier mixing.

The range of water-based acrylics optimised for use with a paint brush. Special formula developed and tested with top European brush-painting modellers. Ideal for usage in the wet-palette technique but also perfect for less experienced modellers and painting straight from the bottle. Highly pigmented and extremely well covering paints. After drying give perfectly even surface, without leaving traces of brushstrokes.

The range of specially formulated lacquer based paints optimised for airbrushing. The product was developed to satisfy needs of all modellers – it is perfect for professional use (application of many semi-transparent layers, gradual building of colours / colour shading, application of very fine lines, etc.), but also very forgiving to beginners. It has significantly limited odour compared to other similar products, hence is more suitable for home use. All colours are highly pigmented and permanent.

The balanced palette of vibrant, pure colours based on a 100% acrylic emulsion with high pigment concentration. Professional-quality with no fillers or extenders added. Special designed to create every colour. Both permanent and lightfast. Offering excellent adhesion on plastic, metal, resin or almost any other surface. Take control of your palette and paint better with creative colour mixing. Add a little bit of white or black and make completely different tones of the same colour. Achieve the greatest range of colour mixes using Hataka pigments. Recommended for figure painting!

PAINT SETS

Recommended for Spitfire kits!

Hataka Hobby paint sets recommended for any IBG Models Spitfire kit you choose! Available in all 3 paint lines - red and blue acrylics and orange lacquers.
